VDOT Stip II.A Determination of No Historic Properties, Present, or Affected  
October 2022

EN20-127-086	Green ES SRTS Phase II	118060	-	FHWA		Richmond (City)	Richmond District	Green ES SRTS Phase	<p>Other: Project APE is within the Mews Neighborhood (127-7891), which was surveyed in 2021 and was recommended Not Eligible for listing in the NRHP due to the lack of significant architectural characteristics or association with a person or an event important to local, state, or national history. One of the oldest buildings, also the core of the neighborhood, was the elementary school (built between 1952 and 1955) which was demolished and replaced by a new school facility in 2021 (Cardinal Elementary School). Therefore, the VDOT concurs with the previous recommendation. A section of the neighborhood was recorded previously in 2016, the McGuire Manor Historic District (127-7038), and was determined Not Eligible by the VDHR. The VDHR reaffirmed this evaluation in 2020. The project does not include other recorded resources, including archaeological sites or battlefields. In addition, the proposed undertaking is within an area that has been previously disturbed by road construction and the excavation of a wide drainage ditch. No archaeological studies are necessary.</p>	10/4/2022

When the site was initially recorded and investigated, Troublefield Rd., the subject of this undertaking already existed and through its construction, had destroyed the portion of the site within the project APE. Site 44DW0004 is an unevaluated lithic scatter identified in the 1960s. In the original site form, it is clearly described as located within a field adjacent to the roadway. The proposed undertaking will have no effect on either archaeological site. A small portion of the Project APE at Tweatt DR, is within Petersburg Battlefield I (DHR ID: 123-5024, Not eligible, ABPP: study area).</p>	10/12/2022
