IMPORTANT MESSAGE

In 2012, VDOT implemented the new Roadway Inventory Management System (RIMS) to replace the old Roadway Data Inventory (RDI) module of HTRIS. This new system is LRS (Linear Referencing System) based and more complex and comprehensive as it deals with the inventory data attributes geo-spatially. Small discrepancies were revealed as a result of the conversion of the data from the old system to the new system. These discrepancies are mostly on the primary and secondary mileages.

To help address this issue and insure consistency of the data, a column called “Adjusted Final Mileage” was previously added to some of the tables. We have improved the LRS to the point that these columns are no longer needed.
